ianlim.18@gmail.com • https://www.linkedin.com/in/ianlim18

EDUCATION

Univ. of California, Santa Barbara, College of Engineering Sep 2012 – June 2016 (Expected)
Bachelor of Science, Mechanical Engineering
(Sponsored under the Ministry of Education, Brunei Overseas Scholarship Programme)

Senior Capstone Project Fall 2015 - Present

Thermal Heat Sink Attachment, Northrop Grumman Corporation

- Working with Northrop Grumman to design a detachable thermal heat sink interface to be used in space
- Machined a prototype and ran outgassing, thermal stress and resistance tests to see if it would survive in space
- Presented two design reviews as well as weekly updates to a panel of faculty members and industry partners

PROFESSIONAL EXPERIENCE

Berakas Power Management Company SDN BHD Brunei Darussalam
Intern, Electrical and Electronic Manufacturing Company Aug 2015 – Sep 2015

- Shadowed and assisted a senior projects engineer responsible for the design and construction of overhead transmission lines throughout the country
- Overlaid and tracked the progress on the erection and stringing of over 100 transmission poles and towers
- Enforced and promoted national health, safety and environmental standards to ensure a safe work environment

Sepakat Setia Perunding SDN BHD, Brunei Branch Brunei Darussalam
Intern, Local Consulting Engineering Firm Jul 2013 – Aug 2013

- Shadowed and assisted a senior engineer who finalized engineering proposals and held business meetings
- Calculated the power required for HVAC units to maintain a cool temperature in different rooms and buildings
- Studied hundreds of engineering drawings and familiarized myself with engineering symbols and codes

CLUB ACTIVITIES AND VOLUNTEER WORK

Alpha Kappa Psi, Omicron Omega Chapter, UCSB May 2015 – Present

- Organized and executed several fundraising events to raise \$3,500 in two months during pledging
- Presented a business proposal that would benefit both financially and to the community to a panel of judges
- Coordinated and planned both professional and philanthropy events that were attended by over 50 brothers

SB Hacks September 2015- Present

- Plan and organize a 3-day hackathon that will be attended by over 500 programmers from all over California
- Cold-called and e-mailed over 50 companies for potential partnership and sponsorship

UCSB ASME (American Society of Mechanical Engineers) Club September 2013- March 2014

- Volunteered in a committee tasked with rebuilding a local park's water wheel
- Engaged in weekly meetings that included discussing agendas and mini engineering design competitions

UCSB BAJA Racing Club September 2013- December 2013

- Repaired and upgraded an old off-road vehicle's speed and durability to improve overall racing performance
- Redesigned and replaced both the braking and suspension systems that increased performance and durability

ADDITIONAL SKILLS

Languages

- Fluent in Malay and English, Proficient in Chinese (Mandarin and Hokkien)

IT and Engineering Skills

- Engineering Software: MATLAB, SolidWorks Computer Aided Design, LaTeX, Abaqus, COMSOL
- Machine Shop
